MICROGRAMS

SUPER STUDENT

Home Software Series

GRADE K

THIS PACKAGE CONTAINS:

- Colors, Shapes, and Patterns
- Understanding Numbers
- Mr. Letter Getter
- Learning to Count
- Alpha Betty
- Consonant Picture Phonics

Education . . . Investment in a future.

Microgrames' Super Student Home Software centers on basic subject areas where extra review and practice at home on a regular basis will greatly benefit a student in his or her schooling.

The Kindergarten Collection includes:

6 Programs

COLORS, SHAPES, AND PATTERNS Noticing similarities and differences is an important step in learning the letters of the alphabet. A variety of increasingly difficult matching exercises develop the beginners visual discrimination skills.

UNDERSTANDING NUMBERS Students work with numerals 1 to 9. How large a group each numeral represents and arranging numerals in ascending order are the concepts covered.

MR. LETTER GETTER Opening doors to reveal alphabet letters is Mr. Letter Getter's specialty. The student works with Mr. Letter Getter to recognize letters of the alphabet, match upper and lower case letters, and identify the letters A to Z in proper sequence.

LEARNING TO COUNT Frogs, dogs, and pennies are ready to be counted in this program. Practice includes counting to ten, counting to twenty, and deciding which of two amounts is larger.

ALPHA BETTY Students direct Alpha Betty across a game board by hopping on lettered squares in alphabetical order. To succeed, both incorrect letters and tricky dead-end paths must be avoided. Both knowledge of alphabetical order and beginning problem solving skills are needed to win.

CONSONANT PICTURE PHONICS Students are challenged to identify the beginning consonant sounds of objects pictured on the screen. Fifteen right in a row earns the Great Job Certificate.

- **Effective educational formats**
- **Excellent, colorful graphics**
- **Multiple levels of difficulty** that provide students greater challenges as their skills improve
- **Tips for parents** on how children gain the most from these programs

Since 1981 MICROGRAMS has specialized in developing educational software for use in schools nationwide. This new Super Student series now enables children to benefit from MICROGRAMS high quality software at home.
